## KEY SKILLS

---

JavaScript • Node.js • React • Typescript • MongoDB • HTML/CSS • PostgreSQL • AI/ML • Express.js • Git/GitHub • Agile • REST APIs • UI/UX • Frontend Architecture

## ABOUT ME

---

Aspiring Frontend Developer with experience building responsive web applications using JavaScript, React, and Node.js. Strong foundation in UI/UX, full-stack development, and API integration, with a passion for creating user-friendly, impactful digital experiences.

## PROFESSIONAL EXPERIENCE

---

### Developer - Remote

June 2023 - Present

*Freelance*

- Built and deployed interactive, responsive websites and applications using JavaScript, React, HTML, and CSS.
- Collaborated with clients to implement features and troubleshoot user experience issues, improving product usability and performance.
- Integrated RESTful APIs and managed version control using Git, ensuring clean and scalable codebases for future updates.
- Delivered pixel-perfect UI components with attention to performance, responsiveness, and accessibility across devices.

### IT Support Engineer

May 2024 – Present

*El Punto Cubano*

- Managed and maintained the restaurant's digital systems including website, online ordering, and event support tools.
- Streamlined tech operations and improved customer experience through web interface updates and system support.
- Led upgrades of POS and collaboration tools, ensuring continuity in service and reducing downtime for staff.

## PROJECTS & EXTRACURRICULAR

---

### Interactive Art Gallery

JavaScript | React | API | CSS | HTML

[Live Link](#)

A website that displays artwork in a responsive gallery layout through APIs.

- Designed and developed a responsive, visually engaging art gallery site using HTML, CSS, and JavaScript.
- Implemented dynamic filtering and smooth navigation to enhance user experience and accessibility.
- Focused on layout composition, responsive design, and visual storytelling to create an immersive front-end experience.
- Emphasized clean, reusable code and performance optimization for consistent cross-device functionality.

### RBT Management Platform

React | Node.js | MongoDB | JavaScript

A platform for Behavioral Therapists to take notes and track client progress.

- Designing a secure full-stack web app to help therapists manage session notes, track client progress, and visualize behavior trends.
- Building HIPAA-conscious architecture with modular, scalable frontend components.
- Implementing real-time updates and secure data handling to improve therapist workflow and care quality.

## VOLUNTEER

---

### STEM Advocate – AECOM

- Volunteer as a STEM Advocate at AECOM, promoting STEM education and career pathways to students through outreach and community engagement events.

## EDUCATION

---

Bachelor of Arts in *Computer Science and Mathematics* – Fall 2026 Hunter College, New York, NY

## CERTIFICATES

---

Google Data Analytics Certificate, FreeCodeCamp Web Development Certificate
